SPRING

A new season is here
And it is great
Come on, Let's sing and dance
Let's celebrate!

Spring is here
Flowers all around
Every season is special
Let's go find out!
Let's go find out!

The birds are singing,
La, la, la, la, la, laaaa
The bees are making honey
Yummy for my tummy!

The trees are green
And the sky is blue

Pink and purple,
All around
From the sky
To the ground

Pink and purple,
All around
Come on
Let's dance

A new season is here
And it is great
Come on, Let's sing and dance
Let's celebrate!

Spring is here
Flowers all around
Every season is special
Let's go find out!
Let's go find out!
Let's go find out!

FINALE

There is time to play
There is time to work
A little every day
When you do it all with lots of love
You have fun and you learn.

Your friends will help you
Always by your side
Life is a journey
So please enjoy the ride!

Let's collect some wood
Let's build a new house
Let's get lots of food!
Let's all sing and dance!

There is time to play
There is time to work
A little every day
When you do it all with lots of love
You have fun and you learn.

Your friends will help you
Always by your side
Life is a journey
So please enjoy the ride!
